- * Article 38.7: Manufacturers shall indicate on the battery their name, registered trade name or registered trade mark, their postal address, indicating a single contact point, and, if available, web and email address. Where that is not possible, the required information shall be provided on the packaging or in a document accompanying the battery. The contact details shall be indicated in a language or languages which can be easily understood by end-users and market surveillance authorities, as determined by the Member State in which the battery is to be placed on the market or put into service, and shall be clear, understandable and legible.

- ** Article 38.6: Manufacturers shall ensure that batteries which they place on the market bear a model identification and batch or serial number, or product number or another element allowing their identification. Where the size or nature of the battery does not allow it, the required information shall be provided on the packaging or in a document accompanying the battery.
